

Connector Hub South West Sydney Psychosocial Supports

Join one of our upcoming connection sessions for people living with psychosocial disability

Connector Hub is a program that helps provide people living with a psychosocial disability the support they need to have more choice and control in life and participate freely in the community. The program supports people who are living with severe mental illness to achieve their goals and improve their wellbeing.

SSI LAC will host connection desks at Connector Hub to provide support to current NDIS participants, as well as potential participants. These sessions will help people to:

- Understand and access the NDIS
- Manage and better understand their NDIS plan
- Find out more about supports and services in the local community

This is an opportunity to meet one-on-one with an experienced Local Area Coordinator (LAC) who can answer your questions, provide support and point you in the right direction.

Details for upcoming sessions can be found on the next page

Details for upcoming connection sessions – Bradbury
