About SSI

SSI is a community organisation and social business that supports newcomers and other Australians to achieve their full potential. We work with all people who have experienced vulnerability, including refugees, people seeking asylum and culturally and linguistically diverse (CALD) communities, to build capacity and enable them to overcome inequality.

Since 2014, SSI has supported people with disability, their families and carers through a number of community based initiatives such as Ability Links and IgniteAbility® Small Business Start-ups. We bring extensive knowledge in delivering disability services across NSW through our staff and participant expertise and their connections to local communities.

With a predominantly bilingual and cross-cultural workforce, speaking more than 90 different languages, our services are tailored to individuals and families to capitalise on their strengths, identify their priorities and meet their current and future needs.

We work alongside all diverse communities including people from Aboriginal & Torres Strait Islander, Culturally and linguistically diverse and LGBTQIA+ backgrounds.
