

# The new Logan Hub

## Connecting Community to Opportunities

### What is the Logan Hub?

The Logan Hub is a purpose-built facility jointly funded by SSI and the Queensland Government to create new economic opportunities for Logan City residents.

The Hub aims to revolutionise the landscape of community infrastructure by establishing a central place that connects people with services, opportunities and support, leading to positive economic contributions and change in the Logan community.

## How you can help promote the Hub

Your support helps ensure more people across Logan are aware of the Hub and the opportunities it will create for the community. Simple actions such as sharing information with your networks or displaying materials can help build awareness and momentum as the new Hub prepares to open.

### Display the poster

Display the Logan Hub poster in community spaces such as local venues, faith centres or meeting places where community members regularly gather.

You can access the poster [here](#).

### Share the flyer

Flyers can be shared at community meetings, events or through local networks to help introduce the Hub and the opportunities it will offer.

You can access the flyer [here](#).

### Send an email

If you share updates with your community groups or networks, you can include information about the Logan Hub. Suggested email wording is included to make this easy to share.

**Subject line:** Building a bright future for the Logan Community

### Body copy

A new community and economic hub is coming to Logan. A space designed to open doors to jobs, training, education and local business opportunities. It will include co-working areas, training and interview rooms, support services, community meeting spaces, a study centre and more, all in one welcoming location.

Developed by SSI in partnership with the Queensland Government, the Hub will bring benefits for local families, job seekers and small businesses, and will reflect the diversity and energy that makes our community so strong.

We're sharing this with our networks so more people in our community know about the new Hub and the opportunities it will offer when it opens.

You can learn more about the project [here](#)

### **Post on social media**

Posting about the Hub on your personal or community pages can help spread the word and ensure more people across Logan hear about the opportunities available.

### **Suggested copy**

A new community and economic hub is coming to Logan! The Logan Hub will be a space where locals can access jobs, training, education, business opportunities and community support, all in one welcoming location.

Developed by SSI in partnership with the Queensland Government, the Hub will bring benefits for local families, job seekers and small businesses, and will reflect the diversity and energy that makes our community so strong.

## **Share the space, share the impact**

We're looking for passionate partners who want to:

- Deliver programs or co-locate services that strengthen our community
- Lease space for social enterprises or community-focused business
- Collaborate on funding applications and innovation projects that amplify our collective impact
